

UC Hit Ball (Group 30 “AKA”)

Summary: Player pad hits ball which is deflected back towards game area.

Priority: High

Extends: UC Move Pad

Normal flow: Pad in inner position hits ball, the ball is deflected with increased speed.

	Actor	System
1	“Inner” pad hits ball	
2		Player’s pad moves to outer position
3		Opponent’s pad moves to inner position
4		Change ball’s direction and speed.

Alternative flow: Pad in outer position hits ball instead and the ball is deflected.

	Actor	System
1	“Outer” pad hits ball	
2		Change ball’s direction back towards center.
